<p>Rust is a real-time survival game created by Facepunch Studios. Inspired by games like Minecraft, and other wilderness survival games. – Rust aims to create a hostile environment in which emergent gameplay can flourish.</p>

<div class="row">

<div class="column">

<h2>About</h2>

<p>Rust is a multiplayer game, so there will be other players trying to survive in the same way that you are. Unfortunately for you they can find you, kill you and take your stuff. Fortunately for you – you can kill them and take their stuff. Or maybe you can make friends and help each other survive. Rust’s world is harsh – so you might need to make friends to survive.</p>
